CAREER OBJECTIVE

My goal is to expand my research and technical capabilities in Data Science, Machine Learning (ML), and Cyber security across the end-to-end data lifecycle—from data preprocessing and exploratory analysis to model deployment. I aim to apply these skills toward cutting-edge research in cybersecurity while actively investigating methods to make machine learning workflows more energy-efficient and environmentally sustainable.

RESEARCH INTERESTS

Machine Learning (ML), **Data Science**, **Cybersecurity**

EDUCATION

Nantong University, School of Artificial Intelligence and Computer Science — **Nantong, Jiangsu, China**
Bachelor of Science Degree in Computer Science and Technology — 2023.09.10 – Present (Exp. 2027)
GPA: **4.00/4.00** (Completed 6th Semester / 144 Credits)
Advisor / Supervisor: **Haochen Wang (王皓晨)**

Chattogram Bandar College — **Chattogram, Bangladesh**
Higher Secondary Certificate (HSC) in Science — 2018 – 2020
Result: GPA: **4.87 / 5.00**

Mandarin Language Proficiency (HSK Level 4) — **Nantong University, China**
Result: **220 / 300** — 2025.12

SKILLS SUMMARY

- **Programming:** Python, R, JavaScript, C#, Java, SQL, HTML/CSS
- **Data Science & AI/ML:** Machine Learning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, Pandas, NumPy, Scikit-learn, Matplotlib, Tidyverse, Ggplot2
- **Tools & Platforms:** Visual Studio Code, Google Colab, Jupyter Notebook, Git, GitHub, LaTeX, RStudio, Zotero, Microsoft Office
- **Languages:** Bengali (Native), English (Advanced / Fluent), Mandarin (Intermediate)

CONFERENCE PUBLICATIONS

- **International Conferences:**
  - **[IEEE CSDE'26]:** Md Mostofa Nurannabi Shakil, **Riad Mahmud Chowdhury**, Tanvir Hossain, Md. Alamgir Hossain, Md. Samiul Islam, and Md. Shafiqul Islam. 'Provable Moving-Target Defense for Cyber-Physical Networks: From the Security-Performance Frontier to No-Regret Defense'. In Proceedings of the IEEE International Conference on Computer Science and Data Engineering (IEEE CSDE 2026). (Accepted / Forthcoming, 2026)

RESEARCH EXPERIENCE

Research Contributor (Data Analysis) — IEEE CSDE 2026

- Assisted extensively in the experimental analysis and framework evaluation of the research project.
- Contributed to the research manuscript preparation and formatting for the final submission package.
- Collaborated with cross-institutional authors to validate data outcomes and model performance.

PROJECTS & SOFTWARE DEVELOPMENT

• [Banking-Web-C-] Online Banking Web System Dec 2025

Architected a secure full-stack web application using C# implementing robust object-oriented transaction logic, customer account management, and database connectivity. Emphasized backend data integrity, input sanitation, and modular design.

• [lego-data-analysis] Multi-decade Structural Dataset Insights 2026

Developed an end-to-end data analysis pipeline in Jupyter Notebook using Python and Pandas to parse multi-table relational schema. Extracted long-term component growth trends, part complexity, and historical color distribution patterns.

• [StackOverflow-Language-Trends] Developer Adoption Analytics 2026

Created a time-series exploratory pipeline utilizing Python, Pandas, and Matplotlib to analyze multi-year programming language popularity, developer discussion frequencies, and evolving open-source developer tooling trends.

• [college-salaries-analysis-pandas] Post-Graduation Compensation Modeling 2026

Engineered quantitative models using Pandas and NumPy to clean and aggregate higher-education wage demographics. Analyzed career earnings trajectories, collegiate institution tiers, and financial payback periods across diverse majors.

• [Superstore-Sales-Profitability-Analysis] Enterprise Retail Analytics 2026

Designed an exploratory analytics framework using R (Tidyverse & Ggplot2) to cleanse corporate sales records, analyze discount sensitivity, visualize regional logistics overhead, and highlight product line profitability margins.

CERTIFICATIONS & PROFESSIONAL TRAINING

• Data, Data, Everywhere — Google Data Analytics Professional Certificate Coursera | 2026

Credential: Certificate Verification Link [Verified / Completed]

• 100 Days of Code: The Complete Python Pro Bootcamp Udemy | 2026

Credential: Certificate Verification Link [Verified / Completed]

ACADEMIC HONORS & EXTRA-CURRICULARS

- **Perfect Academic Standing (CGPA 4.00 / 4.00):** Ranked in top tier throughout all completed semesters at Nantong University, School of Artificial Intelligence and Computer Science (2023 – Present).
- **Academic Mentorship:** Assisted peer student groups in scientific python environments, structured notebook practices, and data visualization setups.
